FRIDAY, DECEMBER 9, 1898.

The treaty with Spain is practically
complete ready for the officers' signa-
tures.

There was evidence last night that
the curfew law does not apply to a boy
with a pair of skates under him.

GROVER Cleveland has expressed him-
self again as opposed to territorial ex-
pansion. The American people do not
agree with him, but the Spaniards do.

A school superintendent in a neigh-
boring city suggests to the citizens that
they visit the schools more frequently,
which is quite commendable. But
when he recommends that a certain
day in the week be set apart as visita-
tion day he carries the matter too far.
The public schools should keep "open
house" every school day in the year.
A "calling day" or an "at home" day
may be all right in society but the pub-
lic schools should not assume such so-
cial functions. The teachers and pu-
pils should be on their "best behavior"
every day. A "calling day" for public
schools usually develops into a sort of
a "show day." Yes, the citizens should
visit the schools frequently, but it is
not necessary to apprise the teachers
and pupils in advance when to expect
company.

Of unusual interest to every of this
paper is the advertisement elsewhere in
this issue of the St. Louis Globe-Dem-
ocrat, unquestionably one of the great-
est of American newspapers. That
peerless paper can now be had by mail,
every day, including the big Sunday is-
sue, for only six dollars per year, and
at that price, it is certainly within the
reach of all who desire to read any
daily paper. The Weekly Globe-Dem-
ocrat is issued in semi-weekly sections
of eight pages each, making it practi-
cally a large semi-weekly, and almost
equal to the average daily, at one dol-
lar a year. This issue is just the thing
for the farmer, merchant or profession-
al man who has not the time to read a
daily paper, but wishes to keep promp-
tly and thoroughly posted. It is made
up with especial reference to the wants
of every member of the family, not on-
ly giving all the news, but also a great
variety of interesting and instructive
reading matter of all kinds. Write for
free sample copies to Globe Printing
Co., St. Louis, Mo.

DR. BULL'S COUGH SYRUP HAS
superior merit. Try it for a cough or
cold and be convinced. There are
many cough remedies on the market,
but Dr. Bull's Cough Syrup is the best.

The streets are still very icy, and the
boys enjoy skating on the streets of
the city.

THE PEOPLE OF MANILA.

Something of Their Manners and cus-
toms.

The people of this country have
learned a great deal about the Philip-
pines the past few months, yet they
want to know still more about the peo-
ple there and the resources of these far
off islands. Below is a letter from
Colonel Hawkins, commander of the
10th Pennsylvania with General Mer-
ritt's army at Manila, which
gives much information about
the people there. The letter was pub-
lished in the Washington (Pa.) Re-
publican for a copy of which the REPUB-
LICAN is under obligations to Mr. S. G.
Rogers, Colonel Hawkins says:

"Manila is certainly a peculiar city,
entirely different from any thing you
could imagine in comparison with an
American city. The few are rich and
the masses are poor. Out of a popula-
tion of over 300,000, there is of Spanish
probably 5,000; of Chinese, 60,000; of
English, a hundred or two; 40 or 50
Germans and about half dozen Ameri-
cans. The balance are the native
Indians or filipinos, and even they are
a wonderfully mixed race. Many hun-
dreds are mixed Chinese and natives,
many more half native, half Spanish.
The wealthy people, Spanish and na-
tive, have beautiful homes and many
luxuries, but in the main the masses
are in dirt, ignorance and general
equality. The Chinese do about all the
work and the natives live off them. In
point of fact, however, the Chinese are
the most docile and passive of the en-
tire lot. The natives regard themselves
as vastly superior to the Chinese and
treat them as inferiors, really looking
down on them. The natives nearly all
have little stores or stalls for the sale
of coconuts, pineapples, oranges, man-
goes, breadfruit, bananas, rice, gin, etc.,
where everything is in the filthiest pos-
sible condition.

The transportation here is carried on
by water buffaloes hitched to carts
singly, by hundreds of similar two-
wheeled carts hauled by Chinese and
by carrying. The load a Chinaman will
carry is simply astonishing. They
attach huge baskets to the ends of a
bamboo pole and carry the load thus
suspended on the shoulders.

All well to do people here wear white
clothing and our officers are following
the rule and all are getting two suits at
\$3, American money, per suit. Busi-
ness here is entirely conducted on the
basis of Spanish and Mexican money,
(silver.) While in San Francisco, I ex-
changed \$100 in gold for 213 Mexican
silver dollars. Here the rate in gen-
eral traffic is two in silver for one in
gold. All prices given are in the Span-
ish pesos or dollar. For instance, white
suits (coat and pants) are made to or-
der for \$6, or to us about \$3 of Ameri-
can money.

A LETTER FROM DEWEY.

Widow of a Tenth Soldier Gets Sympathy
From the Admiral.

GREENSBURG, Pa., Dec. 2.—Following
is a copy of a letter received from Ad-
miral Dewey by Mrs. Noss, of Mt.
Pleasant, Pa., whose husband, Theodore
Noss, was killed in the battle of Ma-
lante, July 31:

Olympia Flagship, Manila, October
23, 1898

My Dear Mrs. Noss:

I wish to express to you my deepest
sympathy. It must lessen your sorrow
somewhat to know that your young
husband fell fighting bravely for his
country, the noblest death a man can
know. From the Olympia I watched
the fight that fearful night and won-
dered how many American homes
would be saddened by the martyrdom
suffered by our brave men, and my
sympathy went out to each and every
one. Your loss has been sadder than
the others, and I am unable to express
the sorrow I feel for you. Tears come
to my eyes as I read the sad story of
the father who never saw his child and
then the loss of all that was left to the
brave mother. It is hard sometimes to
believe, but our Heavenly Father, in
his infinite goodness, always does things
for the best, and some day, father,
mother and daughter will be joined
never again to be parted. With my
tenderest sympathy believe me your
sincere friend,
Geo. Dewey.

Deafness Cannot Be Cured

By local applications as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the Eus-
tachian Tube. When this tube is in-
flamed you have a rumbling sound or
imperfect hearing, and when it is en-
tirely closed, deafness is the result, and
unless the inflammation can be taken
out and this tube restored to its normal
condition, hearing will be destroyed for-
ever; nine cases out of ten are caused
by Catarrh, which is nothing but an in-
flamed condition of the mucous surfaces.

We will give One Hundred dollars for
any case of Deafness (caused by catarrh)
that cannot be cured by Hall's Catarrh
Cure. Send for circulars; free.

A MILLION MILLION.

How Long, Think You, Would It Take
You to Count It?

Professor Wagstaff, whose very name
suggests a pleasing first cousinship to
Shakespeare, has lately been amusing
himself and his audience at Gresham
college by speculations as to what might
have happened if the father of our hu-
man race had given up delving and
taken to figures. Let us suppose that
Adam had set himself to count a mil-
lion million, or, in figures, 1,000,000,
000,000. We will imagine that he could
count three in a second, which, though
not exactly rapid ciphering, will be
found ample, if taken continuously.
Now, if 6,000 years have elapsed since
the gracious amenities of Eden formed
the cradle of humanity, Adam would
have been working for 180,216,000,000
seconds and have reached a total of
567,648,000,000 figures. In other words,
his task of counting a million million
would still have been unaccomplished
by over four hundred thousand millions
digits.

All of which goes to prove what?
There are many possible conclusions.
The first is, of course, that Professor
Wagstaff is a very ingenious and by no
means melancholy mathematician, but
that hardly needed proof. A second
deduction, which we advance with all
humility, is that if Adam had only had
habitual recourse to harmless dissi-
pation of this arithmetical kind, instead
of betraying marital weakness and a
fondness for fruit, his descendants
would have been very much better off
morally and spiritually, though not
perhaps in material comforts. And a
third conclusion, eminently gratifying
to those who refuse to believe that there
is any serious discord between religion
and science, is that Professor Wagstaff,
no doubt a man of distinction in sci-
entific attainments, accepts without any
demur Bishop Ussher's chronology.

According to the divine, the world
was created in 4004 B. C., and that
added to the 1898 years which have
elapsed since the Christian era makes
in round numbers the 6,000 years on
which the whole calculation depends.
Some wayward "scientists" have dog-
matically affirmed that the world has
been wagging along a good many more
centuries than Ussher supposed, al-
though there is a serious difference, it
is true, in this matter between the as-
tronomers and the geologists. So, after
all, perhaps if Adam had been reason-
ably industrious, he would have had
time to accomplish his task, unless his
brain had given way under the strain.
Most of us have such vague ideas as to
the meaning of large figures that it is
as well to be reminded by so happy an
illustration how many units go to the
making of a million. The only other
conceivable fashion in which such in-
struction could be acquired is to become
a South African "boss" of mines and
diamonds, and that process, much as
we may desire it, is, fortunately or un-
fortunately, not open to the majority of
us.—London Telegraph.

THE DOCTOR IN WAR.

Stands the Test of Courage When-
ever Under Fire.

The London Lancet has an article
about the bravery of surgeons under
fire. The Lancet's article is about Brit-
ish surgeons. It applies in so far as its
anecdotes go to them, but in its general
terms and its comments it applies to
all. We have never read of a surgeon
quailing under fire or deserting his post
in a panic, and what is a great deal
more we have never heard of a sur-
geon quailing before a hospital or de-
serting his post, though yellow fever,
smallpox, typhus or cholera threatened
his life and surrounded him with his
horrors. There are many well authen-
ticated stories of the courage and devo-
tion of our army doctors in the field and
hospital. The latter is the much more
trying to courage and fidelity.

The excitement of battle goes far to
keep a man at his work, even should he
be disinclined for it. The long dreary
watches of the hospital, the hard and
thankless round of duty, the hourly
scenes of horror and possibly the dis-
couraging absence of proper assistance
and support from the administration of
the army are what try a doctor's nerve
and test his fortitude and patriotism.
We do not know why they stand the
test so well—better apparently, on an
average, than those whose trade it is
supposed to be to face death and danger.
But the fact remains that they do, all
honor to them!—San Francisco Report.

An Eye For the Near Future.

A woman summoned to see her dying
husband who had met with a street ac-
cident showed every sign of grief. She
threw herself on the floor and howled
at the top of her voice as the man died.
Three days afterward she arrived in the
ward arrayed in the deepest widow's
 weeds.

"Please, I've come for poor Walter's
clothes. The Lord took 'im, but I 'ope,
please God, as I'll find another."—Corn-
hill Magazine.

Unveiling the Past.

"I wish now," shrieked the angry
young wife, "I wish now, George
Whackster, you had married Lucie Jones
instead of me! That's what I wish!"

"I would have married her," howled
the equally angry young husband, "on-
ly she wouldn't have me and you
would!"—Chicago Tribune.

The name California, derived from
the two Spanish words caliente fornal-
li, i. e., "hot furnace," was given by
Cortes in the year 1535 to the peninsula
now known as Lower California, of
which he was the discoverer, on account
of its hot climate.

The sudden changes of climate en-
countered by soldiers when troops are
moved from one quarter of the world to
another are estimated as increasing the
annual mortality of Europe by 50,000
men.

DISASTROUS FIRE.

BROWNSTOWN AGAIN VISITED BY
THE FIRE FIEND.

H. W. Wacker & Co., Nelson Appar. Frank
Schwein, O. T. Benton, Dr. Shields
the Banner, and the Applewhites
Among the Losers.

Brownstown was visited by another
disastrous and unfortunate fire last
night. About 10 o'clock the grocery
store of Frank Schwein was discovered
to be on fire. The fire was well under
way when discovered and the alarm
sounded.

The fire department was soon on the
ground fighting the flames to the best
advantage with the equipment they
had at hand. The citizens turned out
en masse and worked effectively to
prevent a general conflagration.

The fire raged for three hours before
it was under control. It spread to the
Benton building on the corner leaving
it also a mass of ruins.

The grocery store of Frank Schwein,
together with the building belonging
Mrs. Ewing Stillwell was burned. Loss
on goods estimated at \$2,500, building
\$1,000. Some insurance but not
enough to cover anything like the loss.

In the lower floor of the
Benton building was the Nelson
Appar's hardware store and H. W.
Wacker & Company's general store.
Appar's loss is placed at \$3,500. The
amount of his insurance was not
learned. Wacker & Company's loss is
placed at \$6,000 with \$2,500 insurance.
The loss on the Benton building is
probably \$8,000 or \$10,000. It was in-
sured.

On the second floor of the Benton
building was the Banner office, Dr. S.
W. Shields' dental office and Apple-
white & Applewhite's law offices, all of
which were burned. The Banner of-
fice loss is placed at \$2,500 with some
insurance; Dr. Shields' loss is placed at
\$600 with no insurance and Apple-
white's at \$2,000 with small amount of
insurance. The total loss on buildings,
stock, furniture, etc., is more than \$25,-
000.

The loss will fall heavily upon those
burned out and besides is a very un-
fortunate one for Brownstown espe-
cially since so many disastrous fires
have occurred there recently.

During the progress of the fire Harry
Cribbs, while attempting to carry a hose
through one of the second story win-
dows, fell striking his arm on some
glass cutting it quite severely.

John B. Burrell's cow gave birth to a
two-headed calf Monday night. The
main head was well formed except the
lower jaw, which seemed to be divided,
one half of it constituting the second—

the main head had grown edgewise.
The imperfect head had but one eye
and eight representations of two ears,
also a mouth, and the lower jaw con-
tained teeth. The animal was unable
to take nourishment on account of the
division of its lower jaw and was killed.

Issued in Semi-Weekly Sections

Eight Pages Each Tuesday and Friday. Sixteen Pages Every Week.

As a Newspaper
The Weekly GLOBE-DEMOCRAT, issued in SEMI-WEEKLY sections, is almost equal to a daily, at the price of a weekly. The two papers each week give the complete news of that week from all parts of the world, so selected and arranged as to preserve the thread of events from issue to issue. The preparation of the news in this form involves an immense amount of labor and expense. "Agricultural News," "The Farm, Garden and Dairy," are each of the highest grade, and its Market Reports are correct and complete in every detail.

As a Home Journal
The Weekly GLOBE-DEMOCRAT is equally as pre-eminent. It is morally clean, and may be read without contamination by all the members of any family. It contains the very cream of current literature and the best pictorial illustrations. Its departments devoted to "The Home," "For Women," "Agricultural News," "The Farm, Garden and Dairy" are each of the highest grade, and its Market Reports are correct and complete in every detail.

Robbed in the Grave.

A startling incident of which Mr. John Oliver of Philadelphia, was the subject is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow eyes sunken, tongue coated, pain continually in back and sides, no appetite gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man, I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts per bottle at W. F. Peter's drug store.

RAILROAD RUMBLINGS

Through freight is again increasing on our roads.

C. M. Foster, of the E. & I. was in the city Thursday.

H. E. Harsch, of the M. C. Line, was in the city Thursday.

Passenger trains are more or less late now on account of slick rails.

Amos Loyd, of Seymour, is now passenger conductor extra on the B. & O. S-W.

Vienna, Waynesville and Hensville, three little stations on the Louisville division that have been dropped from their list of stopping places. The names will no longer appear on the time tables.

The Pennsylvania lines west are making changes in the runs of engineers, assigning the older of the engineers on the through runs to the day trains and putting younger men who are not young in experience to the night runs.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says: "A man came into our store the day and said, 'I want a bottle of that stuff that saves children's lives. I read in the News about it. The children may get sick when we can't get the doctor enough. It's the medicine you sell for croup.' He alluded to Chamberlain's Cough Remedy and bought a bottle before he left the store. For sale by W. Milhous.

Bro. Aiken Not a Nimrod.

The time of year is here when a man will lose his day's wages, will rent a gun and ammunition, tramp through miles of snow and cold, and put up with bodily discomforts for the privilege of shooting a rabbit, that he could buy full dressed, at most any meat store for ten cents.—Franklin Star.

What do the Children Drink.

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains and when properly prepared tastes like the choice grades of coffee but costs about 1/2 as much. All grocers sell it. 15c and 25c.

There is a Class of People.

Who are injured by the use of coffee. Recently there has been placed in all grocery stores a new preparation called GRAIN-O made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over 1/2 as much. Children may drink it without great benefit. 15c and 25c per package. Try it. Ask for GRAIN-O.

Try Grain-O! Try Grain-O!

Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. 1/2 the price of coffee. 15c. and 25c. per package. Sold by all grocers.

ILLEGAL FEES

Auditors Not Entitled to Extra Compensation for Making Commissioners' Dockets.

CITIZENS USE DYNAMITE

To Blow Up a Wall Erected by the Monon Railroad Company—Nerve Exhibited by a Boy Who Accidentally Shot Himself—Fletcher Durbin Appointed to a Lieutenant.

Indianapolis, Dec. 9.—Attorney General Taylor, in answering an inquiry from the auditor of state, holds that it is not legal for a board of county commissioners to make an order paying a county auditor for making a docket of cases for the board. It is reported that in many counties the commissioners have been allowing the auditors pay for making the docket. In some counties, it is said, the allowance has been 10 cents for every entry.

The attorney general points out that under the law the county auditor is required to make a record in the most convenient form, either by docket or otherwise, of all of the proceedings of the board. "Public officers can only charge and collect for their services such fees as are expressly given by statute, or are fairly implied thereby."

USED DYNAMITE.

Railroad Company Having Trouble at West Baden, Ind., Dec. 9.—Serious trouble is expected here as the outcome of a fight that is now being waged against the Monon railroad. The company was using some ground opposite its station here that belonged to a man named Burton, which they were forced to abandon by Burton. The company then built a wall seven feet high along the line of this property. The property, however, is only 40 feet long, and the company extended the wall 200 feet further, and within two feet of the front of several stores and saloons, claiming that they did so as a protection to the pedestrians. The people think differently, and the feeling is so bitter that an unsuccessful attempt was made to dynamite the wall several days ago. All kinds of threats are now made against the officials of the road.

BRUTAL OUTRAGE.

Three Men Beat a Woman and Her Daughter Into Insensibility.

Evansville, Ind., Dec. 9.—Three men went to the home of Mrs. Sallie Ackers, who lives with her two children, and after beating the woman and her 13-year-old daughter into insensibility, threw Mrs. Ackers upon a stove and set fire to the bed clothing.

Diggers from a coal mine rushed in and saved the woman's life and extinguished the flames. Mrs. Ackers was severely burned around the neck, and her condition is critical.

Two men giving their names as Thomas Mattingly and Thomas Allen have been arrested charged with the crime. Mrs. Ackers' little girl says her mother had forbidden Mattingly calling at her home.

BOY'S NERVE.

Accidentally Shot Himself and Banged His Wound.

Valparaiso, Ind., Dec. 9.—George Nelson, 14 years old, of near here, while out hunting accidentally shot himself in the leg, between the knee and ankle. The little fellow bandaged his leg with his handkerchief to stop the flow of blood, and then crawled half a mile in the bitter cold to a gravel road, where he lay until picked up. The leg had to be amputated.

Was Wellknown to Glassblowers.

Anderson, Ind., Dec. 9.—Joseph Erickson of this city was killed near Jefferson Barracks, Mo. He served through the Santiago campaign with the Twelfth regulars. The soldiers had been riding bicycles on the Iron Mountain railway track into St. Louis. Erickson was run down by the fast express, although for some distance he kept ahead of the train. He had started to make a call on his sweetheart. He was a glassblower, wellknown here.

Will Ride in the East Next Year.

Richmond, Ind., Dec. 9.—The well known jockey, Jesse Matthews, whose home is in this county, is here on a few days' visit prior to leaving for New Orleans, where he is to ride the remainder of the winter. Matthews has just closed a contract to ride in the east next year for the Green Morris stables at a salary of \$350 a month.

Indiana's Strong Man Lives at Eaton.

Eaton, Ind., Dec. 9.—Joseph Carvil is a young blower of this place, though but 19 years old, stands six feet eight inches in height, weighs 245 pounds, and has strength to back up his wonderful proportions. The young man still continues to grow in weight, and is said to be the tallest and strongest man in eastern Indiana.

Crushed His Skull.

Seymour, Ind., Dec. 9.—While helping to enlarge and deepen a well on the farm of Charles Miller, 10 miles south of this city, Charles Potts, 23 years old, accidentally fell in, which resulted in crushing his skull. He died instantly.

Opposed to a New Courthouse.

Jamestown, Ind., Dec. 9.—A romance has been circulating in this township against the building of a new courthouse in Lebanon. In three days no one was found unwilling to sign it.

Chamberlain's Colic Cholera and Diarrhoea Remedy can always be depended upon and is pleasant and safe to take.
